NEMBA

Animal Improvement Act

Meat Safety Act

Provincial legislation
Enabling mechanisms

• Formal structures for inter-governmental coordination and collaboration
• Standard Operating Procedure for permits
• Exemptions
• Changing the permit approach
• Integrated applications and permits
• Amendment of legislation
Conclusions

As government we:

• agree that we need a regulatory framework to protect the resource

• acknowledge that the current regulatory framework is not ideal for sustainable development and economic growth

• commit to collaborate with one another to ensure adequate protection to the resource, while at the same time create an enabling environment for the biodiversity economy
Thank You
