CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. PURPOSE

1.1 To identify, select and support start-up and emerging waste management and recycling companies from historically disadvantaged communities as beneficiaries of the Recycling Enterprise Support Programme (RESP).

2. INTRODUCTION AND BACKGROUND

2.1 The RESP is an initiative launched by late Honourable Minister of Environmental Affairs, B E E Molewa together with the MECs for Environment in the nine (9) provinces.

2.2 The aim of the programme is to implement the resolution taken on 22 August 2015, wherein Minister and Members of Executive Council Meeting (MinMec) resolved to support the establishment of at least two recycling companies per province, owned by historically disadvantaged individuals.

2.3 To date, 25 RESP applications have been approved and are under various stages of implementation.

2.4 The majority of these projects (9) are from Gauteng Province.

2.5 The RESP seeks to provide financial support in the form of grant payments to a maximum of R5 million (five million rands) per project, to start-up and emerging enterprises in the waste recycling sector that represent historically disadvantaged communities with the intent of giving rise to large black industries in the waste sector.

2.6 The implementation on the programme has been delegated to the Department of Environment, Forestry and Fisheries (DEFF).

2.7 The legislative framework that provides context to the rationale for this programme is as follows:

- National Waste Management Strategy, approved by Cabinet November, 2011;
- National Pricing Strategy for Waste Management, 2016;
- Industrial Policy Action Plan (IPAP), 2014;
- Broad Based Black Economic Empowerment Act, 2003 (Act No. 53 of 2003);
2.8 Through the implementation of the RESP, start-up and emerging entrepreneurs in the waste economy are to be identified and adequately supported such that they are able to significantly contribute to the diversion of waste to landfill while creating jobs and economic prosperity.

2.9 The RESP will therefore, over the next few years offer the necessary support required to enable the formation and growth of start-up entrants in the recycling economy that represent historically disadvantaged groups.

3. PROGRAMME OBJECTIVES

3.1 The RESP, as a strategic intervention driven by government and supported by key stakeholders, including the private sector, aims to make a significant impact on job creation, poverty alleviation, and economic transformation.

3.2 The RESP is primarily targeted at start-up and emerging business entities that have developed business plans that demonstrate a high potential to make a significant impact within the waste economy both in terms of waste diversion from landfill as well as job creation and economic development.

3.3 The implementation of RESP aims to address the following strategic objectives:

- A substantial increase in recycling rates and waste diverted from landfills.
- To drive entrepreneurship and job creation by ensuring the economic benefits emanating from waste are fully exploited.
- The enablement of significant participation of black and historically disadvantaged businesses in the waste collection, recycling, beneficiation and energy recovery in the secondary resources economy.
- Implementation of projects aligned to Waste Phakisa and relevant government programmes.
- Support the waste sector to contribute towards the country’s Gross Domestic Product (GDP).
- Promote innovation through converting recyclables into marketable products and;
• To encourage sustainability of the identified and supported projects.

4. **EXPECTED DELIVERABLES/OUTCOMES**

4.1 The success of this programme will be determined by the following factors amongst others:

- A tangible decline of recyclable waste taken to landfill sites towards recycling activities.
- A significance contribution towards the improvement of the environment including air quality and climate change.
- Introduction and increase prominence of start-up and emerging historically disadvantaged recycling companies.
- A significant number of new jobs created in the waste economy.
- Long term sustainability of the awarded projects.
- To establish interlinkages with relevant sectors of economy i.e. manufacturing sector.

5. **PRIORITY AND LIMITATIONS**

5.1 The RESP applications that will be considered should be for the following provinces only: North West, Mpumalanga, Northern Cape, Free State, Limpopo, Eastern Cape, Kwazulu Natal, and Western Cape. No application for the area of Gauteng will be considered.

5.2 Applicants who were not successful in the previous application process are encouraged to apply again, however only the applications that meet the specifications as detailed in the terms of reference contained herein will be considered.

5.3 Any applicant who has been previously awarded the RESP grant and/or are current beneficiaries of the programme are not eligible to apply.

5.4 Non-Profit Organisations (NPO), Non-profit companies (NPC) and Non-governmental organisations are not eligible to apply.

5.5 Fronting is strictly prohibited and the Department reserves the right to prosecute those found to have breached this requirement.

5.6 The directors and/or owners of the current beneficiaries of RESP are not eligible to apply either as the same entity or under a different name or application.

5.7 The change of ownership and shareholding after the application process to the Department and/or grant awarding should first be approved by the Department.
5.8 Joint ventures may apply provided that the respective partners establish a new, registered entity.

5.9 The implementation of RESP aims to address among others implementation of projects aligned to Operation Phakisa initiatives for the Chemicals & Waste Economy and relevant government programmes and priority will be given to such projects i.e. industrial waste, organic and food waste, E-waste, packaging waste, construction and demolishing waste and etc.

5.10 DEFF reserves the right to award subject to budget availability.

6. PROGRAMME DESCRIPTION

6.1 The RESP seeks to provide support, including grant funding to start up and emerging across the country, operating in the recycling economy from historically disadvantaged groups with the intent of giving rise to large historically disadvantaged industries in the waste sector.

6.2 The RESP evaluation process will pay particular attention to proposed projects addressing waste streams affecting the energy, mining, manufacturing, information and communication technology, fast moving consumer goods, agricultural and retail sectors.

6.3 The RESP further aims to promote projects that support the Operation Phakisa initiatives for the Chemicals & Waste Economy which are projects that enhance the recycling value added chain covering:

- Industrial waste beneficiation,
- Biomass waste treatment and energy recovery solutions from organic and non-recyclable waste,
- Health care risk waste including absorbent hygiene products,
- Separation at source activities,
- Establishment of material recovery facilities
- Plastic palletisation plants
- Construction & demolition waste beneficiation,
- Mining and Metallurgical
- Manufacturing
- Information and Communication Technology
• Agricultural
• Food processing waste.

6.4 The proposed projects must demonstrate the sustainability of the enhanced operations without further funding support from the Department after the project period, set at five years maximum.

6.5 The demand, viability and cost-efficiency of the proposed projects would be assessed with reference to prevailing socio-economic and market conditions, contribution to increasing the quantity and quality of recyclables recovered from the waste stream as well as those of recycled products from their treatment, and enhancing the competitiveness of recyclables, thus reducing the amount of waste disposed of at landfills.

6.6 The programme is made available on a grant basis between DEFF and the successful applicants.

6.7 The programme offers a grant to the maximum value of R 5 million towards the total qualifying costs, based on the qualifying criteria.

6.8 The grant support is intended for waste management related machinery and equipment, infrastructure (with the exclusion of land purchase), commercial vehicles, overheads and business development services (including salaries not more 30% of grant value) necessary to grow the enterprise to ensure growth within a period of 5 (five) years.

6.9 Funds will be disbursed to each beneficiary on a draw down basis subject to the achievement of specific, and agreed milestones which may include, an approved disbursement schedule and/or actual expenditure incurred with auditable supporting documents.

6.10 DEFF will endeavour to communicate to the public in good time the likelihood of funds for new allocations being exhausted.

6.11 Communication will be made with the successful applicants only.
