CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a \textit{pe se} prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. PURPOSE

To appoint a service provider to conduct a business reengineering of the Environment Local Government support Programme in line with the findings of the Local Government Support Internal Evaluation conducted in 2009/2010 financial year, Local Government Support Strategy, developments within the Environment and Local Government sector in order to inform the Local Government Support Programme redesign and structuring.

2. INTRODUCTION AND BACKGROUND

The Department introduced the Community Environmental Workers Programme in 2004, which later became the Local Government Support Programme (LGS). The Programme employs officials at a Control Environmental Officer Grade A, level whose responsibilities are to support municipalities with environmental planning, management and conservation while supporting the departmental branches. These officials also play a critical role in supporting DEA initiatives within municipalities. The officials are placed and housed at district municipal level from where they service both the district and its local municipalities. This arrangement makes them part and parcel of the municipal operations. The programme employs a dual reporting system with officials reporting to an assigned supervisor at municipal level and to the Control Environmental Officer Grade B: Local Government Support in the Department of Environmental Affairs (DEA). DEA enters into a contractual agreement through a Memorandum of Understanding (MoU) with the recipient municipalities where the officials are placed, outlining the roles and responsibilities between DEA and the affected municipalities and defining the relationship between the two parties.

In the financial year 2009/2010 the Department conducted an internal evaluation study of the Local Government Support Programme. The purpose of the study was to evaluate the effectiveness, efficiency, relevancy, sustainability and impact on the programme in supporting municipalities. The study recommended that the department redesign the Local Government support programme for effective coordination and support to environmental management at local government.

In February 2011 the report “Local Government Support Evaluation” (LGSE) was released proving an overview an analysis of the programme and making recommendation on how the programme could be improved so that it can support DEA initiatives within municipalities better. Furthermore, in 2014 the Local Government Support Strategy (LGSS) was completed aligning DEA support initiatives with the Government strategic imperatives such as the National Development Plan (NDP) and the National Strategy for Sustainable Development (NSSD). The development of LGSS, the strategy was developed in order to reposition the programme to bring in coordination of support from the environment sector and ensure maximum impact of the support initiatives within the local government sphere.

In the financial year 2013/2014 the Department developed the Local Government Support Strategy which is meant to coordinate the Local Government Support interventions within the sector guided by the goals of the strategy which are:

- Improved environmental governance systems (institutions, finance, legislation, capacity)
- Effective integration of sustainability into all policies, planning and decision-making
- Sustainable and efficient management and use of natural resources
- Green economy
- Climate change response
2.1 FUNCTIONS OF LOCAL GOVERNMENT SUPPORT PROGRAMME

- Support Environment Planning & Management in Municipalities
- Facilitate and coordinate environmental capacity building and awareness initiatives
- Improve environmental governance systems within municipality
- Support the planning & implementation of Environmental Management programmes in Municipalities.
- Conduct environmental sustainability monitoring in municipalities.

3 PROBLEM STATEMENT

A plethora of specific environmental management acts were introduced in the past decade after the establishment of the Local Government Support officials in districts. This legislation position local government at the epicentre in terms of full-filling environmental mandate and this has a knock on effect on the expectations from the Local government support officials located in the Districts. The challenge at this point is to unpack what this means in practice for municipalities and whether the Local Government Support and the environmental sector are properly configured to offer maximum support to local government.

There are increasing expectations on local government to take custodianship of the environment this is within a municipal climate where funding, skills and capacity are under severe pressure across all areas of municipal functions relating to this basic mandate. However, the Local Government Support Evaluation Report indicates that majority of municipalities (76%) most of which are rural, do not have the capacity to establish units for environmental planning and management and therefore they rely on the support of the LGS programme to carry out these functions on their behalf.

In the financial year 2011/2012 the Department consolidated the two units which were conducting Local Government Support work (Local Government Support Sub-Directorate which was under the Social Responsibility Chief Directorate and Local Government Planning Sub-Directorate under Environment Sector Coordination Chief Directorate) to establish a single unit to conduct and coordinate Local Government Support work which is the Local Government Support Directorate which was informed by the Internal Evaluation Study of the Local Government Support Programme.

With these developments (Internal Evaluation of the Local Government Support Programme, Consolidation/establishment of Local Government Support Directorate, Development of Local Government Support Strategy and other developments within the Environment Sector and the Local Government Sphere) there is a need for the Department to analyze, review and redesign the Local Government Support Programme to ensure that the programme respond adequately to the recommendations of the internal evaluation, requirements of the Local Government strategy and development within the sector and Local Government Sphere.

Accounting Officer as contemplated in the CCA or a Verification Agency accredited by SANAS or a Registered Auditor. Registered auditors do not need to meet the prerequisite for IRBA’s approval for the purpose of conducting verification and issuing EMEs with B-BBEE Status Level Certificates. Bidders other than EMEs must submit their original and valid B-BBEE status level verification certificate or a certified copy thereof, substantiating their B-BBEE rating issued by a Registered Auditor approved by IRBA or a Verification Agency accredited by SANAS.

A trust, consortium or joint venture, will qualify for points for their B-BBEE status level as a legal entity, provided that the entity submits their B-BBEE status level certificate. A trust, consortium or joint venture will qualify for points for their B-BBEE status level as an unincorporated entity, provided that the entity submits their consolidated B-BBEE scorecard as if they were a group structure and that such a consolidated B-BBEE scorecard is prepared for every separate bid.

Tertiary institutions and public entities will be required to submit their B-BBEE status level certificates in terms of the specialized scorecard contained in the B-BBEE Codes of Good Practice.

A person will not be awarded points for B-BBEE status level if it is indicated in the bid documents that such a bidder intends sub-contracting more than 25% of the value of the contract to any other enterprise that does not qualify for at least the points that such a bidder qualifies for, unless the intended subcontractor is an EME that has the capability and ability to execute the sub-contract.

A person awarded a contract may not sub-contract more than 25% of the value of the contract to any other enterprise that does not have an equal or higher B-BBEE status level than the person concerned, unless the contract is sub-contracted to an EME that has the capability and ability to execute the sub-contract.

I, THE UNDERSIGNED (FULL NAME) …………………………………………………….. CERTIFY THAT THE INFORMATION FURNISHED ON THIS DECLARATION FORM IS TRUE AND CORRECT.

I ACCEPT THAT, IN ADDITION TO CANCELLATION OF A CONTRACT, ACTION MAY BE TAKEN AGAINST ME SHOULD THIS DECLARATION PROVE TO BE FALSE.

…………………………………   ………………………………….
Signature                          Date

…………………………………   ………………………………….
Position                           Name of Bidder
1 This Standard Bidding Document (SBD) must form part of all quotations¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a \textit{pe se} prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

a. disregard the quotation of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when quotations are considered, reasonable steps are taken to prevent any form of quotation-rigging.

5 In order to give effect to the above, the attached Certificate of Quotation Determination (SBD 9) must be completed and submitted with the quotation:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
CERTIFICATE OF INDEPENDENT QUOTATION DETERMINATION

I, the undersigned, in submitting the accompanying quotation:

________________________________________________________________________

in response to the invitation for the quotation made by:

______________________________________________________________________________

(Name of Institution)

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of:__________________________________________________________that:

2. I understand that the accompanying quotation will be disqualified if this Certificate is found not to be true and complete in every respect;

3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying quotation, on behalf of the bidder;

4. Each person whose signature appears on the accompanying quotation has been authorized by the bidder to determine the terms of, and to sign the quotation, on behalf of the bidder;

5. For the purposes of this Certificate and the accompanying quotation, I understand that the word “competitor” shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:

    (a) has been requested to submit a quotation in response to this quotation invitation;

    (b) could potentially submit a quotation in response to this quotation invitation, based on their qualifications, abilities or experience; and

    (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium⁵ will not be construed as collusive bidding.

7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:

   (a) prices;
   (b) geographical area where product or service will be rendered (market allocation)
   (c) methods, factors or formulas used to calculate prices;
   (d) the intention or decision to submit or not to submit, a quotation;
   (e) the submission of a quotation which does not meet the specifications and conditions of the quotation; or
   (f) bidding with the intention not to win the quotation.

8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this quotation invitation relates.

9. The terms of the accompanying quotation have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

⁵ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.
10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.
