THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US$ 10 million or other currency equivalent to US$ 10 million will have a NIP obligation. This threshold of US$ 10 million can be reached as follows:

(a) Any single contract with imported content exceeding US$10 million.

or

(b) Multiple contracts for the same goods, works or services each with imported content exceeding US$3 million awarded to one seller over a 2 year period which in total exceeds US$10 million.

or

(c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US$10 million.

or

(d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US$10 million.

1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30% of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a pro-rata basis.

1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.
1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:

a. the contractor and the DTI will determine the NIP obligation;
b. the contractor and the DTI will sign the NIP obligation agreement;
c. the contractor will submit a performance guarantee to the DTI;

d. the contractor will submit a business concept for consideration and approval by the DTI;

e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;

f. the contractor will implement the business plans; and

g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

(c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

1 REQUEST FOR PROPOSAL

1.1 The objective of this request for proposal is to appoint a credible and experienced specialist consultancy to assist the Department of Environmental Affairs in compiling the first Biennial Update Report (BUR-1), and from that, a final draft of the BUR of a quality that is acceptable for submission to the UNFCCC Secretariat.

1.2 Preference may be given to a Service Provider/s that is not already performing consultancy work for the Department of Environmental Affairs (DEA), hereafter referred to as ‘the department’.

1.3 Companies/service provider who were contacted to draft the Terms of Reference will not be considered.

2 BACKGROUND AND INTRODUCTION

2.1 Details of the mandate to compile a Biennial Update Report are as follows:

2.1.1 South Africa, as a party to the United Nations Framework Convention on Climate Change (UNFCCC), has an obligation to submit National Communications (NCs) every four years and Biennial Update Reports (BURs) in between NCs to report its current standing on climate change in terms of its efforts to mitigate climate change as well as efforts and analysis in the area of adaptation;

2.1.2 The Conference of Parties, through decision 1/CP.16, paragraph 60 (c), decided that developing country Parties (including South Africa), consistent with their capabilities and the level of support provided for reporting, should submit Biennial Update Reports containing updates of national greenhouse gas inventories, including a national inventory report and information on mitigation actions, needs and support received;

2.1.3 Non-Annex I Parties (including South Africa), consistent with their capabilities and the level of support provided for reporting, should submit their first Biennial Update Report (BUR-1) by December 2014;
2.1.4 Non-Annex I Parties (including South Africa) shall submit a Biennial Update Report every two years, either as a summary of parts of their national communication in the year in which the national communication is submitted or as a stand-alone update report;

2.1.5 Based on 2.13 and 2.1.4, South Africa intends to submit its BUR-1 by December 2014 and develop a national system supporting BUR compilation on a bi-annual basis. The national system shall be developed such that it responds to both the compilation of BURs and National Communications;

2.1.6 The first Biennial Update report submitted by non-Annex I Parties (including South Africa) shall cover, at a minimum, the inventory for the calendar year no more than four years prior to the date of the submission, or more recent years if information is available, and that subsequent Biennial Updates reports shall cover a calendar year that does not precede the submission date by more than four years;

3 **Biennial Update Report and its guidelines**

3.1 The objectives of the guidelines for the preparation of the biennial update reports from Parties not included in Annex I to the Convention (non-Annex I Parties) are as follows:

3.1.1 To assist non-Annex I Parties in meeting their reporting requirements under Article 4, paragraph 1(a), and Article 12 of the Convention and decision 1/CP.16;

3.1.2 To encourage the presentation of information in a consistent, transparent, complete, accurate and timely manner, taking into account specific national and domestic circumstances;

3.1.3 To enable enhanced reporting by non-Annex I Parties on mitigation actions and their effects, needs and support received, in accordance with their national circumstances, capacities and respective capabilities, and the availability of support;

3.1.4 To provide policy guidance to an operating entity of the financial mechanism for the timely provision of financial support needed by developing country Parties in order to meet the agreed full costs of preparing their biennial update reports;

3.1.5 To facilitate the presentation of information on finance, technology and capacity-building support needed and received, including for the preparation of biennial update reports;

3.1.6 To facilitate reporting by non-Annex I Parties, to the extent possible, on any economic and social consequences of response measures.

4 **Scope and Extent of Work**

4.1 The role of the service provider/s is to compile the first Biennial Update Report (BUR-1) for submission to the UNFCCC Secretariat by December 2014. To achieve this objective the service provider must address four immediate objectives, namely: (a) Compile a draft BUR-1 report that covers all the elements needed to be reported on by non-Annex-I countries (see section 3.1) (b) subject the draft BUR-1 report to an independent review process that guarantees quality assurance and that the BUR-1 accommodates a wide range of views in its development (c) that the BUR-1 is published for international reporting purposes as well as synthesised in a manner that supports policy making and its content is easily accessible to the general public and (d) that a BUR national system is developed to ensure that future BUR reports are compiled in a sustainable manner.
4.2 **Immediate Objective A** – The BUR is compiled in such a way that covers all the elements needed to be reported on by non-Annex-I countries. The outputs associated with this immediate objective are as follows:

4.2.1 **A.1: National Circumstances Chapter** - Information on national circumstances and institutional arrangements relevant to the preparation of the national communications on a continuous basis;

4.2.2 **A.2: National Greenhouse Gas Inventory Chapter** - The national inventory of anthropogenic emissions by sources and removal by sinks of all greenhouse gases (GHGs) not controlled by the Montreal Protocol, including a national inventory report;

4.2.3 **A.3: Mitigation Actions Chapter** - Information on mitigation actions and their effects, including associated methodologies and assumptions;

4.2.4 **A.4: Cross-Cutting Chapter** - Constraints and gaps, and related financial, technical and capacity needs, including a description of support needed and received;

4.2.5 **A.5: Financial Support Chapter** - Information on the level of support received to enable the preparation and submission of biennial update reports;

4.2.6 **A.6: Measurement, Reporting and Verification Chapter** - Information on domestic measurement reporting and verification;

4.2.7 **A.7: Additional Information Chapter** - Any other information that the non-Annex I Party considers relevant to the achievement of the objective of the Convention and suitable for inclusion in its biennial update report.

Within two months of appointment, the appointed service provider shall, with the assistance from the department, develop a **BUR-1 implementation plan (A.8)** that will be designed such that the BUR-1 is finalised by September 2014.

4.3 **Immediate Objective B** – The BUR is subjected to an independent review process to ensure quality and credibility that warrants submission to the United Nations Framework Convention on Climate Change (UNFCCC) secretariat by December 2014. The outputs associated with this immediate objective are as follows:

4.3.1 **B.1: A public comment and response database** – a populated table that lists, at least: the source of comments; the comment; a cross-reference to the BUR-1; and proposed responses to the comment.

4.3.2 **B.2: A Public Comment and Response Report** – a report that provides an analysis of the comment and response database including, among others: an analysis of comment sources; areas of common concern; issues that are better addressed in future BURs; and recommendations on how key and/or common comments should be addressed.

4.3.3 **B.3: A detailed BUR-1 Review Report** – a report that provides a clear understanding of the quality (i.e. data accuracy and quality, the quality of methodologies employed and their implementation, etc.) of the draft BUR-1 including recommendations on how the quality of the draft BUR-1 can be improved, where necessary, possible and/or practical.

**Please Note:** To ensure consistency of national BUR reviews, the department will provide the service provider with a review report template guiding the service provider on the elements on the review. Therefore, the service provider shall use the review template provided by the department to conduct and present review findings and document review recommendations.
4.3.4 **B.4: A Supplementary Improvement Plan** – A three-year improvement plan that builds from the observations and recommendations of the BUR-1 review report outlined in output 4.4.3 to enable the department to put systems and resources towards improving the national BUR such that it is of the quality required for submission to the United Nations Framework Convention on Climate Change (UNFCCC) Secretariat. The supplementary improvement plan should be in an excel spreadsheet detailing the what, who, how, when of the three-year improvement plan.

4.4 **Immediate Objective C** – The BUR is published in such a way that it meets international Reporting requirements and is synthesised in a manner that supports and facilitates policy making domestically. The outputs associated with this immediate objective are as follows:

4.4.1 **C.1: Summary for Policy Makers (SPM):** The BUR-1 report is summarised and synthesised such that it captures and presents key messages out of the BUR report that informs policy making. The key guiding principle for the development of the SPM is that it is policy relevant as opposed to being policy prescriptive. The SPM should not be more than 10 pages long and should be written in such a way that its content is accessible to policy makers and the general public.

4.4.2 **C.2: BUR-1 and SPM edited:** The service provider shall appoint an independent English language editor to edit both the BUR-1 and its SPM to ensure language accessibility and consistency across the chapters of the reports as well as ensuring that the messages that the reports are conveying are articulated in an accessible and concise manner.

4.5 **Immediate Objective D** – A National System (NS) for compilation of future BUR reports is developed outlining institutional arrangements, principles and procedures needed to compile BURs in a sustainable manner. This piece of work will assist the Department of Environmental Affairs to develop internal capacity for compilation of BUR reports in the future. Hence it is critical that the national system should have an organisational development plan as well as a skills development plan to achieve the national system objective. The outputs associated with this immediate objective are as follows:

4.5.1 **D.1: BUR National System Design:** The national system design will outline the key elements and functions needed to sustain the operations of the national system. For example, the national system should clearly outline data and information flows, institutional arrangements to support data and information flows, principles and procedures needed to sustain operations of the national system for BUR compilation, processes and tools needed to compile and synthesize the data and information to be used for producing the BUR report, Quality Assurance/Quality Control plans, procedures for dealing with uncertainty analysis as well as procedures for stakeholder engagement in the process of compiling a BUR report. In addition, the national system design should specify procedures for data archiving and storage. Furthermore, the design of the national system should be influenced by the **Supplementary Improvement Plan** (output B.4) outlined in section 4.3.4. In the development of the BUR national system, the service provider is encouraged to study national systems of other countries both from the developed and developing country perspective.

4.5.2 **D.2: BUR Organizational Development Plan (ODP):** The national system on its own cannot be fully functional and be sustainable if there is no proper organizational structure to support it based on the functions it needs to perform. Hence, the ODP will have to outline the national system organisation structure that will have to be anchored within the Department of
Environmental Affairs. The ODP will also highlight the roles and skills requirement needed to manage and operate the BUR national system. Therefore, the appointed service provider will develop job descriptions for each staff member highlighted in the ODP. These job descriptions will be annexures to the (ODP).

4.5.3 **D.3: BUR Skills Development Plan:** Once the ODP has been fully developed and approved, the appointed service provider will have to develop a skills development plan that will capacitate the current department staff and staff that will be employed as per the ODP. The skills development plan should be structured as a three year capacity building programme that will ensure that the BUR national system staffs are competent to produce BURs every two years. It is worth noting that the staff that will develop BURs every two years shall be the same staff that will produce National Communications. Therefore, it is imperative that this process takes into account developments in the national communication report compilation process.

4.6 In addition to the outputs highlighted in sections 4.2, 4.3, 4.4 and 4.5 above, the service provider shall:

4.6.1 Formally submit the final BUR-1 and its SPM to the department in 10 Hard copies and 5 electronic copies (preferably on individual memory sticks);

4.6.2 The project will be managed by the department’s Directorate: Chief Directorate: Climate Change Monitoring and Evaluation and, particularly, the Directorate: Monitoring and Evaluation –Change Information;

4.6.3 The Project Director is the department’s Director: Monitoring and Evaluation –Change Information;

4.6.4 The project will be guided by the Project Steering Committee established for the development of the first biennial update report;

4.6.5 The appointed service provider shall submit a preliminary budget containing the hours and amount to be spent on each output, before work can commence;

4.6.6 Companies may be invited to give presentations on the work as and when required.

5 **TIMING OF ASSIGNMENT**

5.1 The project will commence following the signing of a contract between the department and the appointed service provider.

5.2 All work is to be carried out in accordance with the work-plan and time schedule agreed by the Project Steering Committee and Project Manager.

5.3 Notwithstanding 5.2 all the outputs detailed in 4.2, 4.3, 4.4 should be delivered on or before September 2014.

5.4 The project is expected to have a duration of no longer than 15 months and the following table provides some guidance/expectations in this regard
