CERTIFICATE OF INDEPENDENT BID DETERMINATION

1  This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2  Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3  Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a.  disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b.  cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4  This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5  In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. PURPOSE
To appoint a service provider to develop an Implementation Plan for the National Framework for Climate Services and its associated Implementation Plan with a Programme of Action

2. INTRODUCTION AND BACKGROUND
The NFCS is premised on the Global Framework for Climate Services (GFCS) conceptualized and endorsed by the World Meteorological Organization to strengthen the production, availability, delivery and application of science-based climate monitoring and prediction services. At the Sixteenth World Meteorological Congress, WMO was requested through Resolution 47 (Cg-16) to lead the development of the Implementation Plan of the GFCS, with the active involvement of the relevant stakeholders, including United Nations bodies. The GFCS addresses the entire value chain for the production and application of climate services. It is a Framework designed to mainstream climate science into decision-making at all levels and help ensure that every country and every climate-sensitive sector of society is well equipped to access and apply the relevant climate information. The overarching goal of the Framework is: To enable better management of the risks of climate variability and change at all levels, through development and incorporation of science based climate information and prediction services into planning, policy and practice.

The approval of the GFCS Implementation Plan at the WMO Extraordinary Congress in Geneva, Switzerland, in 2012, mandated WMO Member States to establish supporting frameworks for climate services at national level. The first step towards the GFCS implementation in South Africa saw SAWS, in partnership with DEA and WMO, hosting a national climate services workshop from 19 to 22 August 2013 in Pretoria. This arose out of a need for the country to consolidate climate change and variability as well as climate mitigation services. Out of the workshop, emerged the Roadmap for Climate Services in South Africa.
3. **OBJECTIVES**

The main objective of this project is to develop the National Framework for Climate Services and its associated Implementation Plan with a Programme of Action.

4. **SCOPE, EXTENT OF WORK AND DELIVERABLES**

The national Department of Environmental Affairs (DEA) in partnership with South African Weather Service (SAWS) seek the services of a service provider to conduct work which will lead to the implementation of the NFCS with the scope of work and related outputs as detailed below:
