1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER FOR DEVELOPMENT AND UPDATING OF A LEGISLATION HANDBOOK TO BE USED BY ENVIRONMENTAL MANAGEMENT INSPECTORS

1. PURPOSE

Environmental Management Inspectors (EMIs) are mandated to monitor and enforce compliance with specific pieces of national environmental legislation. In order properly to do so, EMIs require easy access to updated legislation that falls within their legal mandate to enforce. The purpose of these terms of reference is thus to appoint a service provider to develop (i.e. compile including design and layout), print, keep updated, and distribute a loose-leaf handbook of relevant environmental legislation.

2. INTRODUCTION AND BACKGROUND

During 2014, the Department developed a two volume EMI Legislation Handbook. This consists of two A5 loose leaf files and each contains relevant Acts and subordinate legislation that fall under the National Environmental Management Act (NEMA) and specific environmental management Act (SEMA) framework. The object of this publication is to provide EMIs with a user-friendly, comprehensive and updated legislative reference resource, which is critical to the effectiveness of the work that they undertake. See attached marked “A”, the indices to the two volumes. The content of the EMI Legislation Handbook is updated internally by the Department; and then passed on to an external service provider for formatting, design, layout and printing. Once printed the updated pages are delivered to the Department who is then responsible for delivering them to the respective EMI institutions so that they may in turn update their loose leaf publications.

Due to the rapid pace of law reform undertaken in respect of the NEMA and SEMA framework, the growing numbers of EMIs designated in different institutions across the country, together with the complex logistics of delivering (and recording) these handbooks to the employing institutions, the Department no longer has the capacity to deliver this service at the optimal level.
3. OBJECTIVES

The overall objective of this project is to appoint a service provider to develop, design, format, update, print and distribute the EMI Handbook with all principal and subordinate legislation that is relevant to the legal mandate of EMIs. This will mean that the service provider will need to develop a new EMI Legislation Handbook in an acceptable loose leaf format; and will, on its own accord, need to ensure that the Handbook is kept updated and that the updated pages are distributed directly to the users.

4. SCOPE AND EXTENT OF WORK

The service provider is required to develop and keep updated a loose leaf legislation handbook which contains the suite of national environmental legislation applicable to compliance and enforcement which legislation will be used and referred to by EMIs in their daily duties. This includes, at present, the following suite of legislation. Kindly note that this may change as the legislation is amended and updated.

The service provider should provide the content of the following Principal Acts and Regulations:
