CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. PURPOSE

1.1. To appoint a service provider to

1.1.1. Develop a broad-based Education for Sustainable Development (ESD) module that can be used by trainers to train project implementers and/or participants in the Expanded Public Works Programmes of the Department of Environmental Affairs;

1.1.2. Develop a participant learner work book that is derived from the module referred to in 1.1.1.

2. INTRODUCTION AND BACKGROUND

2.1. The Department of Environmental Affairs is the lead sector department of the Expanded Public Works Programme (EPWP) in the Environment and Culture Sector. The main objective of the EPWP is to create temporary jobs and skills development opportunities for the unemployed through implementation of labour intensive projects. Projects are implemented through two main streams, namely Natural Resource Management (NRM) and Environmental Protection Infrastructure Programmes (EPIP) based on 14 themes.

2.2 While it is a necessity that both EPIP and NRM are guided by the National Skills Development Strategy, which recommends that skills development respond to workplace learning and career pathing, the National Skills Development Strategy seems to be relatively silent on capacity development needs associated with the broader environmental issues in South Africa.

2.3 As a result, the inclusion of well-facilitated ESD in the capacity development needs of participants may influence thinking and competence, which encompasses knowledge, values and skills, for enabling better practice. This enabled competence may create spaces for building a deeper understanding of the purpose of the participant job in the broader environmental sector; and may provide the first step along an educational and occupational trajectory towards the possible engagement with opportunities outside of the EPWP, including Green Economy opportunities. This makes ESD, targeted at youth and participants, extremely valuable.

3. OBJECTIVES

3.1 The objective of this project is to develop one Education for Sustainable Development module, that begins to address required competencies and that links with a participant learner workbook (that can be used for assessment) for the benefit of the training officials and/or implementing agents and participants of the departmental EPWP projects for later implementation.

4. SCOPE AND EXTENT OF WORK

The scope of the work is as follows and the service provider is expected to:

4.1 Perform a baseline study of existent training and skills development interventions in both NRM and EPIP and materials used for these interventions;

4.1.1 The baseline study must take the following, amongst other issues, into consideration: historic and current internal interventions, the role of the provincial training co-ordinators (EPIP), the implementing agents of the EPIP, the Directorate: Programme Training and Youth Development (EPIP); Directorate: Operational Support and Planning (NRM) and the DEA document “EP Environmental Education review” (already produced).

4.1.2 The baseline study and its process must be documented;
4.1.3. Use the findings and recommendations of the baseline study, as well as knowledge of relevant unit standards offered by Sector Education and Training Authorities to develop a non-accredited module that is relevant to both NRM and EPIP; that can be used to educate participants and be used to “train the trainers” (implementing agents);

4.2. Develop an Education for Sustainable Development module comprised of at least the following:
4.2.1. Facilitator guide (which includes suggested content for facilitator presentations)
4.2.2. Learner work book (with practical illustrations)
4.2.3. Assessment guide

4.3. An introductory section should be written to describe the concept of sustainable development, its key competencies and how ESD can be used to strengthen these competencies.

4.4. The module should be composed of themes that correlate with the themes of the various programmes of NRM and EPIP as described in Table 1. These themes should link with the participants' workplace context and the broader framework of sustainable development so that participants are enabled to integrate sustainable development concepts (values, attitudes, ethics and perspectives) into their work and home (community) lives;

4.5. The module should be compiled in simple English and should be developed with the literacy and educational levels of the participants in mind;

4.6. Develop a learner work book, which can be used by the participant in their workplace context. Due to language constraints, the workbook must use pictures more than text to convey relevant concepts and must be outcomes based.

4.7. The assessment guide should enable the Department to demonstrate impact of the training on participants and provide for different types / forms of assessment.

4.8. Outline a roadmap for the accreditation process for the ESD module described in 4.2;
4.9. The final, close-out report must include:
4.9.1. The consolidation of the baseline study;
4.9.2. The process followed for the compilation of the baseline study;
4.9.3. The roadmap of the accreditation process.

4.10. The final, close-out report must be delivered as two full colour hardcopy documents, and as softcopy MS-Word document. The layout and branding of the report must be prepared according to the branding guidelines of the DEA.

4.11. The Service Provider/s must submit monthly progress reports to the Programme Manager for the duration of the project and attend monthly project meetings at the Department of Environmental Affairs in Pretoria.

5. **EXPECTED DELIVERABLES**

The expected deliverables and outcomes of the project is the following:

5.1. A baseline study;

5.2. An overarching ESD module (non-accredited) that is relevant to both NRM and EPIP; that can be used to educate participants and be used to “train trainers” (implementing agents) comprised of the following:

5.2.1 Facilitator guide (which includes suggested content for facilitator presentations)
5.2.2 Learner work book (with practical illustrations)
5.2.3 Assessment guide

5.3 A roadmap for an accreditation process for the ESD module;

As soon as practicable after receipt of the supplier’s notice, the purchaser shall evaluate the situation and may at his discretion extend the supplier’s time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.

supplies are required, or the supplier’s services are not readily 
available.

21.5 Except as provided under GCC Clause 25, a delay by the supplier in 
the performance of its delivery obligations shall render the supplier 
liable to the imposition of penalties, pursuant to GCC Clause 22, 
unless an extension of time is agreed upon pursuant to GCC Clause 
21.2 without the application of penalties.

21.6 Upon any delay beyond the delivery period in the case of a supplies

to purchase supplies of a similar quality and up to the same quantity in 
substitution of the goods not supplied in conformity with the contract 
and to return any goods delivered later at the supplier’s expense and

consider termination of the contract pursuant to GCC Clause 23.

23.1 The purchaser, without prejudice to any other remedy for breach of
