1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:

4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word “competitor” shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:

   (a) has been requested to submit a bid in response to this bid invitation;
   (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
   (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium\(^3\) will not be construed as collusive bidding.

7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
   (a) prices;
   (b) geographical area where product or service will be rendered (market allocation)
   (c) methods, factors or formulas used to calculate prices;
   (d) the intention or decision to submit or not to submit, a bid;
   (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
   (f) bidding with the intention not to win the bid.

8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

\(^3\) Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.
10. 1. **PURPOSE**

1.1 To appoint a service provider/s to assist the Department of Environmental Affairs (DEA) in conducting elephant research in support of the Elephant Research Strategy (ERS) for a period of three years. The ERS is attached herewith as Annexure A for ease of reference. Alternatively, the ERS could be accessed at the following link: https://www.environment.gov.za/sites/default/files/docs/elephant_research_strategy2014to2024.pdf.

2. **INTRODUCTION AND BACKGROUND**

2.1 Elephants are recognized as a keystone species that attract particular attention because of their charismatic nature. The Department of Environmental Affairs has the responsibility for the development of policy, regulations and legislation regarding the management of elephant in South Africa, and this needs to be grounded within the DEA’s Environment Sector Research, Development and Evidence Framework. Thus, such policy development must be evidence-based. To serve this requirement, and to facilitate research that will be policy-relevant, DEA, supported by SANParks, developed the South Africa Elephant Research Strategy.

2.2 The Elephant Research Strategy document identified research fields required to strengthen elephant management in South Africa. The Strategy is structured into a suite of four broad research programmes, namely (1) the Scaling Management Decisions Programme which focuses on relevant scales for managing the effects of elephants; (2) the Management Interventions Programme which has four themes including risks associated with techniques, animal health and welfare risks, responses by elephants and risks associated with unintended consequences; (3) the Management Trade-offs Programme which focuses on human perceptions and ethical trade-offs, strategic environmental optimization risk and benefit assessment, and policy and regulatory impact assessment; (4) the System Integrity Programme which focusses on biodiversity, tourism and stakeholder outcomes.

3. **OBJECTIVES**

3.1 To guide research that will fulfil information needs identified in the ERS and strengthen elephant management in South Africa.
4. **SCOPE AND EXTENT OF WORK**

   The role of the appointed service provider/s will be to assist the DEA in undertaking elephant research on the following identified elephant research programmes and themes as contained in the ERS:

4.1 Scaling Management Decisions Programme, including:
   - Theme 1: Relevant scales for managing the effects of elephant.

4.2 Management Interventions Programme, including:
   - Theme 1: Risk associated with techniques
   - Theme 2: Animal health and welfare
   - Theme 3: Responses by elephant
   - Theme 4: Risks associated with unintended consequences

4.3 Management trade-offs programme, including:
   - Theme 1: Human perceptions, appraisal and ethical trade-offs
   - Theme 2: Strategic environmental optimization risk and benefit assessment
   - Theme 3: Policy and regulatory impact assessment

4.4 System integrity programme, including:
   - Theme 1: Biodiversity Outcomes
   - Theme 2: Tourism Outcomes
   - Theme 3: Stakeholder Outcomes

**N.B:** The potential service provider/s should take note of the following:

- Each theme requires a separate proposal. The service provider could submit a proposal for only one theme or multiple proposals covering multiple themes.
- In compiling proposals the service providers should consider the deliverables and prioritisation of the research themes as reflected in the table contained in paragraph 5.
- The proposal should include information relating to the methodology to be used and specific deliverables based on the specific theme covered.

5. **EXPECTED DELIVERABLES / OUTCOMES**

   The following deliverables/outcomes are expected:

It should consider studies developing approaches that recognize scaling of the elephant confined to small parks managed as individuals rather than a population. The key research focus should be on the temporary dimension of scaling. This includes temporary changes in threats such as poaching for ivory, as well as exploring approaches directed at increasing scales that reduce management intensity.</td>

This theme focuses on behavioural and physiological consequences of management interventions particularly considering spatial and temporal scaling.

- Research report with clear findings relating to the behaviour and physiological consequences of management interventions and recommendations, including but not limited to policies and management implications, practical guidance, areas of further research.
- Scientific paper on findings and proof of submission to scientific journal for publication.

### Theme 3: Responses by elephant

This theme focuses on the effectiveness of management interventions on elephant populations, structure and spatial use. The theme also accommodates research seeking to understand the drivers of elephant demographics and spatial use variability as pre-cursors to evaluating responses of elephants to management.

- Research report on the analysis of responses by elephant populations on multiple management interventions across different scales, including the implications on the population structure, demographic and spatial use.
- Scientific paper on findings and proof of submission to scientific journal for publication.
### Theme 4: Risks associated with unintended consequences

The focus of this theme is to identify and define unintended consequences of management interventions associated with impacts on the ecological system. These include vegetation and/or habitat change, impacts on other animals and impacts on threatened species. Focus should also be on additional unintended consequences that associate with influences on the quality of tourism experiences, as well as changed perspectives of key stakeholders and how these influence land-use economics.

- Research report on the intended and unintended consequences of different management interventions across different scales, including intended and unintended impacts on the ecological system and socio-economic considerations.

- Scientific paper on findings and proof of submission to scientific journal for publication

The theme also includes evaluation of changes in tourist expectations and experiences in response to elephant management actions. The theme also includes evaluation of changes in tourist expectations and experiences in response to elephant management actions.

### Theme 3: Stakeholder Outcomes

Numerous social surveys have focused on traditional communities abutting protected areas. Perceptions, expectations and effects associated with elephants may thus be best evaluated by reviews and meta-analyses. A key requirement relates to perceptions and expectations of evolving stakeholders abutting parks as well as distant stakeholders. In these cases structured social surveys of assisting in improving understanding of the tourists’ expectations, how those expectations might change based on elephant management interventions and what are the economic models available to inform a decision in terms of introducing elephants across scales. The information should reflect perceptions both in protected areas and outside protected areas.
