1. PURPOSE

To appoint a service provider that will conduct an assessment and evaluation of the socio economic impacts of the implementation of:

- Waste classification and management regulations (WCMR);
- National Norms and standards for the assessment of waste for landfill disposal; and
- National Norms and standards for disposal of waste to landfill

2. INTRODUCTION AND BACKGROUND

2.1 The National Environmental Management: Waste Act 2008 (Act no. 59 of 2008, as amended) (hereafter referred as the “Waste Act”) was promulgated and came into effect in 2009. The Waste Act was developed as framework legislation which legislate the management of waste from production to disposal as a last resort.

2.2 For appropriate implementation of the Waste Act, the framework is essential to be clearly outlined, this is suitably facilitated through development of regulations, Norms and standards (N&S) and guidelines to outline the execution of the Waste Act. Thus far various documents, including the above three have been developed and are being implemented.

2.3 The main objective of the Waste Act is implementation of the Waste Hierarchy in order to properly classify, manage and as a last resort dispose of waste. Waste Hierarchy has been implemented incrementally with waste stakeholders mostly prioritising recycling and landfilling, neglecting other options of the hierarchy. In order to appropriately direct and manage waste into specific waste management options, DEA developed the WCMR and the two associated N&S in 2013, among the main objectives of the three documents was to ensure execution of other options of the waste hierarchy.

2.4 A study undertaken by the Western Cape Provincial Government indicates that the high costs of implementation of the WCMR and the N&S has resulted in instances of non-compliance and a number of unintended and negative impacts.

2.5 In light of the above, the Department found it necessary to appoint a Professional Service Providers to evaluate the socio-economic impacts of implementing the waste classification and management regulations (WCMR) and the associated N&S.
3. **OBJECTIVES**

3.1 Appoint a service provider to conduct an assessment of the socio-economic impacts of implementing the WCMR and the associated N&S.

4. **SCOPE AND EXTENT OF WORK**

The service provider will be expected to engage with all nine provincial waste officers and at least 3 municipalities per province and consider their inputs in the development of the report on the following:

4.1 Assess the socio-economic impacts of the regulations and associated N&S on the regulated stakeholder groups, in particular municipalities, and the impacted households and other municipal service recipients. Status quo report.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3. Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

5. In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
