TERMS OF REFERENCE

REQUEST FOR APPOINTMENT OF SERVICE PROVIDERS FOR THE PRE-MANUFACTURE OF GREEN BUILDING COMPONENTS IN THE EASTERN CAPE, WESTERN CAPE, KWAZULU-NATAL AND MPUMALANGA.
1. PURPOSE

To appoint service providers in terms of the infrastructure tender process for the pre-manufacture of green building structures components.

Service Providers will be required to bid in terms of the department’s tender process and the successful entities will be allocated a specific region or specific workstream of the greater operation.

This process will be internal to the department with management and technical support provided by the Value-Added Industries as implemented by Working on Fire (Pty) Ltd.

2. INTRODUCTION AND BACKGROUND

2.1 The Department of Environment, Forestry and Fisheries (DEFF) has successfully concluded the registration of its load bearing materials with Agrément South Africa, who is the listed public entity that regulates and evaluates the fitness for purpose of non-standardised construction products, materials and systems.
2.2 The product had been subjected to Agrément trials and subsequently obtained certification. It is created from approximately 75% of invasive biomass materials as a result from clearing of invasive trees that cause fires, which can be used to build fire-proof houses. The experiments have shown that the product is less expensive and has superior building properties over conventional options (fire-proof, strength, thermal properties, acoustic properties, ease of construction).

2.3 As a result of the various successful demonstrations of green building technology, the Department of Environment, Forestry and Fisheries (DEFF) has been appointed as an Implementing Agent to the Department of Basic Education (DBE), to construct Toilet Blocks to replace pit latrines in schools. An initial allocation for 58 schools in the Eastern Cape forms part of the Sanitation Appropriate for Education (SAFE) initiative. Consequently, a pre-manufacture facility will be required in the vicinity of the schools.

2.4 The technology will be deployed in SANParks protected areas with the allocation of 120 staff accommodation units, initially to be constructed in the Kruger National Park. A pre-manufacture facility will thus be required outside the park to support this construction process.

2.5 The Department of Environment, Forestry and Fisheries (DEFF) has established a research and development facility in the Western Cape. This facility facilitated the pre-manufacture of green building components for the demonstration units and is exploring green building structures opportunities in the Western Cape. The department wishes to outsource this pre-manufacture facility.

2.6 The Environmental Programmes (EP) as a branch, comprises a variety of programmes through which the department contributes to the government’s Expanded Public Works Programme (EPWP), secured the appointment. The pre-manufacture operation will be based on the EPWP methodology of government.

2.7 The Department, through the Value-Added Industries (VAI) programme in the Environmental Programmes (EP) Branch, is also building houses, classrooms, roads, sports fields and other structures utilizing the green building components researched, developed and patented by the VAI programme.

3. **OBJECTIVES OF THE PROPOSAL**

The Department would like to invite suitably qualified service providers to enlist their services for the pre-manufacture of green building components in the Eastern Cape, Western Cape, Kwazulu-Natal and Mpumalanga.
4. **SCOPE AND EXTENT OF WORK**

4.1 The scope and the extent of work shall be specified for each project by suitably qualified professionals and entities will be expected to submit quotations based on such specifications. This shall be done only when the Department has approved projects to be implemented.

4.2 You are hereby invited to tender on the following, to be submitted separately for each facility:

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
