1. **PURPOSE**

To appoint service provider(s) to conduct stakeholder engagement, develop situational report for Amathole Biosphere, conduct stakeholders consultation, develop management framework and compile a nomination dossier for Amathole Biosphere Reserve within Amathole District Municipality.

2. **INTRODUCTION AND BACKGROUND**

Biosphere Reserves are national sites of terrestrial and coastal or marine ecosystems or a combination thereof designated under United Nations, Educational, Scientific and Cultural Organization (UNESCO) Man and Biosphere (MAB) programme to promote conservation and sustainable development based on local community efforts and sound science. The MAB Programme was launched in the early 1970s, and was substantially revised in 1995 with the adoption of the Seville Strategy and the Statutory Framework of the World Network of Biosphere Reserves by the Unesco’s General Conference.

South Africa has been participating in the UNESCO Man and Biosphere (MAB) Programme since 1995. To date South Africa has Ten (10) Unesco designated Biosphere Reserves. The Department of Environmental Affairs developed a National Biosphere Reserve Strategy and its Action Plan for 2016 to 2020 which is currently under implementation.

Amathole District Municipality (ADM) has initiated the processes of establishing Amathole Biosphere Reserve by commissioning a development of the feasibility study in 2008 which recommended that the establishment of the AMBR is feasible. Based on the findings and recommendations of the feasibility study, the council resolved to embark on the UNESCO nomination processes.

ADM is situated in the central coastal portion of the Eastern Cape, between the Mbhashe River in the northeast and the Great Fish River in the southwest. It occupies the central coastal portion of the province, bordered by the Eastern Cape districts of Cacadu, Chris Hani and OR Tambo, respectively to the west, north and east.

Amathole DM is mainly rural in character and consists of six local municipalities, including Amahlathi Local Municipality, Great Kei, Mbhashe, Mnquma, Ngqushwa, and Raymond Mhlaba. The proposed Amathole biosphere reserve is located in three local municipalities, i.e., Ngqushwa, Raymond Mhlaba and Amahlathi. Ngqushwa comprises of the town of Peddie, the coastal town of Hamburg, and numerous peri-urban and rural settlements. Ngqushwa is predominantly rural with only 5% of the population living in the urban areas, as opposed to 95% of the population who reside in the rural areas. Ngqushwa Local Municipality has 12 wards. Raymond Mhlaba comprises of the towns of Alice, Fort Beaufort and Middledrift, the smaller towns of Hogsback and Seymour, Bedford, Adelaide and surrounding rural areas. The total population of Raymond Mhlaba Municipality is 157 000 and the municipality has 23 wards. Amahlathi comprises of the towns of Stutterheim, Cathcart, Keiskammahoek and Kei Road and surrounding rural areas. Amahlathi is 4266.21km2 in extent, and comprises of 15 wards. The population of Amahlathi is 101 826.

Preliminary work such as feasibility study with biophysical and socio-economic analysis as well as stakeholder engagement was conducted. However, a comprehensive work in line with the improved UNESCO guidelines for a nomination need to be undertaken in order to submit to UNESCO a credible
nomination dossier. It is against this background that, the Department seeks the services of a suitable independent Service Provider to compile a comprehensive work for the Amathole biosphere nomination project which will lead to the successful nomination of the biosphere reserve.

3. OBJECTIVES

The proposals are invited from suitable independent service provider(s) who will assist DEA to develop situational report, conduct stakeholder engagement, and compile the nomination dossier for the proposed AMBR within the Amathole District Municipality.

4. SCOPE AND EXTENT OF WORK

4.1. SITUATIONAL ANALYSIS/STATUS QUO

The situational analysis to be conducted covering but not limited to geographical and bio-physical environment, socio-economic environment, natural and cultural assets, existing infrastructure, institutional environment, current planning and programme framework, and any key issues and challenges. The situational analysis should be as a result of literature review and engagements with local communities and institutions within the project area.

4.2. STAKEHOLDER ENGAGEMENT

Intensive stakeholder consultation must be undertaken in the key areas of the proposed Amathole Biosphere Reserve. The process of undertaking the stakeholder engagement is summarized but not limited as stated below:

<table>

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
