Bid rigging is, therefore, an agreement between competitors not to compete.

1. PURPOSE

1.1. To appoint the services of a filming company to document Environmental Management Inspectors (EMI) undertaking compliance and enforcement functions across the Environmental Management Inspectorate (national, provincial and local).

2. INTRODUCTION AND BACKGROUND

2.1. In 2005 amendments were made to the National Environmental Management Act, 107 of 1998 (“NEMA”) which created a legal framework for the designation of Environmental Management Inspectors (“EMIs”). This amendment included empowering provisions which allows EMIs to undertake compliance and enforcement in respect of the NEMA and all of the Specific Environmental Management Acts (“SEMAs”).

2.2. The Environmental Management Inspectorate (“the Inspectorate”) has grown since then. This growth necessitated a critical analysis to be undertaken which aimed at establishing the strengths and weaknesses of the Inspectorate. This work was subsequently finalised during the last MTSF cycle and one of the outcomes of this work indicated that the profile of the Inspectorate was not well understood by the regulated community. As such, much more work was required to be done to ensure that this limitation is overcome. Furthermore, the need for this documentary as well as the promotional video clip thereof will serve as a compliance promotion tool when undertaking awareness campaigns amongst various affected sectors.

2.3. Furthermore, and since the inception of Environmental Management Inspectors, only 1(one) video clip was produced in 2006 to show the EMIs actively undertaking compliance and enforcement activities. Given the expansion of the EM Inspectorate over the last thirteen (13) years, this video clip has by and large has become obsolete.

3. OBJECTIVES

3.1. The overall objective of this project is to produce:

3.1.1. A 45-minute documentary showcasing the work of Environmental Management Inspectors across all of the subsectors (blue, green and brown); and,

4.1.2 The documentary must be produced in English, at highest market quality standards, high-definition, fast paced and colourful, with clean stylistic touches. The total running time of the documentary is to be 45 minutes long;

4.1.3 The entire film production i.e. writing, filming, editing, voicing/narration (including all production processes, namely pre-production, production and post-production) must be done by the service provider, delivering a final ready-to-air product in broadcast standards and in high definition; and

4.1.4 The final cut of the documentary must be approved by the Department of Environmental Affairs.

4.2 Promotional video clip (“Promo”):

4.2.1. The service provider shall produce a 4-minutes promo which highlights the key message of the documentary and which must include all of the requirements listed in paragraph 4.1 which equally applies to this segment of the work.

4.3.1. The areas to which the service provider will be required to travel to film the work of the Inspectorate will be the following:

m. The service provider is also required to interview EMIs across all the subsectors and operating within each of the spheres of government (local, provincial and national) within each of their specific workplace. The Department will provide the names of these officials and will be concentrated in Limpopo, Eastern Cape and the North West Provinces.
