CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. **PURPOSE**

1.1 To identify, select and appoint an independent service provider to conduct a socio-economic impact assessment study of the implementation of Recycling Enterprise Support Programme (RESP).

2. **INTRODUCTION AND BACKGROUND**

2.1 The RESP was borne out of a resolution taken at a meeting held on 22 August 2015, wherein Minister of Environment, Forestry and Fisheries (formerly known as the Department of Environmental Affairs) and Members of Executive Council for environment (MinMEC) resolved to support the establishment of previously disadvantaged black owned waste recycling companies across the country.

2.2 The RESP is a programme managed by the Department of Environment, Forestry and Fisheries (DEFF) with the aim of providing technical support and developmental funding to start-up and emerging Small, Micro and Medium Enterprises (SMMEs) owned and managed by previously disadvantaged individuals.

2.3 The SMMEs supported by the programme must be operating within the waste sector thereby making a material contribution to transforming and growing the waste economy.

2.4 The RESP, as a strategic intervention driven by government and supported by key stakeholders, including the provincial and local government as well as the private sector. The programmes aims to make a significant impact on environmental protection, waste management, job creation, poverty alleviation and economic transformation.

2.5 The RESP provides financial support in the form of non-repayable grant up to a maximum of R5 million (five million rands) per project, to start-up and emerging enterprises in the waste recycling sector, from previously disadvantaged communities with the intent of giving rise to black industries in the waste sector.

2.6 The legislative frameworks that provide context to the rationale for this programme are:

- National Waste Management Strategy, approved by Cabinet November, 2011;
- National Pricing Strategy for Waste Management, 2016;
- Industrial Policy Action Plan (IPAP), 2014;
Black Industrialists Policy, 2015;
Public Finance Management Act, (Act No. 1 of 1999); and
Treasury Regulations of 2005.

Through the implementation of the RESP, start-up and emerging entrepreneurs in the waste economy are identified and adequately supported such that they are able to significantly contribute to the diversion of waste to landfill while creating jobs and economic prosperity.

The strategic objectives of RESP are as follows:

2.8.1 A substantial increase in recycling rates and waste diverted from landfills.
2.8.2 To drive entrepreneurship and job creation by ensuring the economic benefits emanating from waste are fully exploited.
2.8.3 The enablement of significant participation of previously disadvantaged owned businesses in the waste collection, recycling, beneficiation and energy recovery in the secondary resources economy.
2.8.4 Implementation of projects aligned or intended to achieve the delivery of targets as put forward in the National Development Plan 2030.
2.8.5 Support the waste sector to contribute towards the country’s Gross Domestic Product (GDP).
2.8.6 Promote innovation through converting recyclables into marketable products;
2.8.7 To encourage sustainability of the identified and supported projects, and
2.8.8 Promotion of the implementation of the circular economy concept.

The expected deliverables and outcomes from the RESP are as follows:

2.9.1 A tangible decline of recyclable waste taken to landfill sites and this waste directed towards recycling activities.
2.9.2 A significance contribution towards the improvement of the environment including air quality and climate change.
2.9.3 Introduction and increased prominence of start-up and emerging historically disadvantaged recycling companies.
2.9.4 A significant number of new jobs created in the waste economy.
2.9.5 Long term sustainability of the awarded projects.
2.9.6 To establish interlinkages with relevant sectors of economy (i.e. manufacturing sector).

2.10 To date 24 RESP applications have been approved across the country and over R 98 million has been spent.

2.11 List of all RESP beneficiaries are:
