CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. PURPOSE

1.1. The purpose of this Request for Proposals (RFP) is to obtain bids from prospective independent service providers to form part of the panel for a maximum of five (5) service providers for the provision of a forensic investigation service at the Department of Environment, Forestry and Fisheries (DEFF / The Department) on an as and when required basis.

2. INTRODUCTION AND BACKGROUND

2.1. The effectiveness of the National Anti-Corruption Hotline (NACH) and other internal fraud reporting processes is dependent on the extent to which feedback is provided to callers and oversight bodies on a timely basis. As such, the Department has a responsibility to ensure the timely investigation of allegations / cases referred to it and to provide comprehensive feedback to the Auditor-General, Public Service Commission (PSC) and the Director-General (DG).

2.2. The Minimum Anti-Corruption Capacity for Departments and Organisational Components in the Public Service (MACC) provides at paragraph 13(e) that Departments are to establish capacity to investigate allegations. Whilst the Department does have internal investigative capacity, there are some instances where additional resources and/or expertise may be required.

3. OBJECTIVES

3.1. To appoint a panel of service providers up to a maximum of five (5) to provide an ad hoc forensic investigation service in cooperation with Management to determine if allegations / reports of fraud and corruption received from the various reporting sources are substantiated on an “as and when” required basis.

4. SCOPE AND EXTENT OF WORK

4.1. The scope of the forensic investigation service includes at least the under-mentioned. Any other functions that may be required by the Department, may be offered and / or clearly defined.

4.2. The forensic investigation service is sought on an “as and when required basis”. The Department will engage the services of the service provider as and when it deems necessary. The extent to which investigations are referred to the service provider will depend on the case reports / allegations received and the Department’s assessment thereof. The referral of a case report to the service provider is thus completely at the Department’s discretion.
4.3. Investigation projects may include services in terms of forensic investigation techniques including, but not limited to, polygraph testing, background checks, imaging and analysis of electronic devices (computers, laptops, mobile phones etc.). The methodologies utilised will depend on the nature and extent of the allegations received by the Department and the terms of reference of the investigation.

4.4. The service provider will furnish the Department with a report on the factual findings resulting from its investigation as well as specific recommendations. The recommendations should also determine measures for the remediation of control weaknesses identified during the investigation process.

4.5. The service provider shall work in conjunction with the Director: Risk Management (DRM), or his/her delegate, during the investigation process.

4.6. The service provider will be required to provide regular progress reports during the investigation to the DRM. The timing of said progress reports will depend on the duration of the investigation and will be determined by the DRM.

4.7. All intellectual property including the investigation reports, supporting documentation and working papers will become the property of the Department.

4.8. All information obtained from the Department (documentary or otherwise) shall be regarded as classified and as such must be handled appropriately as required by the Minimum Information Security Standards (MISS) policy.

5. EXPECTED DELIVERABLES / OUTCOMES

5.1. The service provider will submit written progress reports as and when required by the DRM, dependent on the duration and scope of the investigation project. This may be a weekly or monthly report.

5.2. The service provider will issue an investigation report as per paragraph 4.4 above. The investigation reports shall be submitted to the DRM as follows:

Work will be carried out on an “as and when” required basis and in accordance with the project plan as agreed with the DRM.

6.2 The service providers will be subjected to an annual performance assessment. The continuation of the contract on an annual basis will be dependent on a favourable annual assessment result.

7. **DEFF PANEL UTILISATION**

7.1. The panel of service providers will be used to provide support to the Department for specific task on an “as and when” required basis. The inclusion on the panel does not imply a guaranteed contract for work.

7.2. The task order allocations will be based on the principle of rotation.

7.3. Allocation of 2nd and 3rd task orders will depend on the bidder’s performance, financial standing and capacity requirements (human resource or key experts required for the successful completion of the project).

7.4. Upon referral of a case report to the service provider for investigation, the service provider shall submit a detailed project plan indicating the various investigation phases / processes, period for completion of the project and a comprehensive budget containing a breakdown of the hourly tariff/rate (VAT inclusive) per category as required for the investigation services.
