CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

2. INTRODUCTION AND BACKGROUND

2.1 Details of the mandate to compile a Third National Communication are as follows:

2.1.1 South Africa, as a party to the United Nations Framework Convention on Climate Change (UNFCCC), has an obligation to submit National Communications (NCs) every four years and Biennial Update Reports (BURs) in between NCs to report its current standing on climate change in terms of its efforts to mitigate climate change as well as efforts and analysis in the area of adaptation;

2.1.2 In accordance with Article 4, paragraph 1 and Article 12, paragraph 1, of the Convention, each Party shall communicate to the Conference of Parties through the secretariat, the following elements of information;

2.1.2.1 A national inventory of anthropogenic emissions not controlled by the Montreal Protocol, to the extent its capacities permit, using comparable methodologies to be promoted and agreed upon by the Conference of the Parties;

2.1.2.2 Where appropriate, national programmes containing measures to mitigate, and to facilitate adequate adaptation to climate change (general description of steps taken or envisaged by the party to implement the Convention);

2.1.2.3 Any other information that the Party considers relevant to the achievement of the Objective of the Convention and suitable for inclusion in its national communication, including, if feasible, material relevant for calculations of global emission trends; and

2.1.2.4 Participation in research and systematic observations, their implementation of the framework for transfer of technology for adaptation and mitigation; actions and issues relating to climate change education, training and public awareness, capacity building as well as information and networking.

In accordance with COP decision 1/CP.16 Paragraph 60 (b), Non-Annex I Parties (including South Africa) shall submit a National Communications every four years;

2.1.3 Based on 2.1.2, South Africa intends to finalise TNC by December 2016 and develop a national system supporting TNC compilation and submission within 4 years of the receipt of the funds for the actual preparation of the national communication. The national system shall be developed such that it responds to both the compilation of BURs and National Communications;

2.1.4 The TNC report submitted by South Africa shall cover, at a minimum, the inventory for the period 2000 to 2012, i.e. four inventory years behind at the time of reporting to the UNFCCC.

2.1.5 The TNC report should also make reference to the previous work and transition and progress with regards to the published 1st and 2nd national communication reports to the UNFCCC.
2 NATIONAL COMMUNICATION REPORTING AND ITS GUIDELINES

2.2 The objectives of the guidelines for the preparation of the national communications from Parties not included in Annex I to the Convention (non-Annex I Parties) are as follows:

2.2.1 To assist non-Annex I Parties in meeting their reporting requirements under Article 4, paragraph 1(a), and Article 12 of the Convention;

2.2.2 To encourage the presentation of information in a consistent, transparent, complete, accurate and timely manner, taking into account specific national and domestic circumstances;

2.2.7 To allow Non-Annex I parties to provide information in their national inventories, on a gas-by-gas basis and in units of mass, estimates of anthropogenic emissions of carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O) by sources and removals by sinks. Non-Annex 1 Parties are also encouraged, as appropriate, to provide information on anthropogenic emissions by sources of hydrofluorocarbons (HFCs), perfluorocarbons (PFCs) and sulphur hexafluoride (SF₆).

3. OBJECTIVES

The project has 3 Immediate Objectives. Immediate Objective A, B & C. The Objectives are explained in greater detail below.

4. SCOPE AND EXTENT OF WORK

4.1 The role of the service provider/s is to compile and finalise the first chapter of the Third National Communication on National Circumstances. The submission of the TNC will be by December 2016. To achieve this objective the service provider must address four immediate objectives, namely; (a) Compile a draft 5th chapter of the TNC that covers all the elements needed to be reported on by non-Annex-I countries on national circumstances (b) subject the draft chapter to an independent review process that guarantees quality assurance and that the national circumstances chapter accommodates a wide range of views in its development (c) that the 5th chapter is integrated into the TNC and is published for international reporting purposes as well as synthesised in a manner that supports policy making and its content is easily accessible to the general public and (d) ensure that when drafting the national circumstances chapter, every effort should be made to highlight the links between the information included in it and the sustainable development planning process. Thus many of the issues covered in the chapter should be relevant to integration into the development planning process of the country.
4.2 Immediate Objective A – The outputs associated with chapter 5 (Other Information relevant to the Convention) of this immediate objective are as follows and also summarised in Table 1 below:

4.2.1 Enhanced research and systematic observation systems, thus enabling the country to better meet its commitments:

4.2.1.1 Research and systematic observation needs identified and prioritised for implementation (such needs must at least cover hard and soft technical needs, financial and capacity building needs);

4.2.1.2 Identification of projects on climate research to improve assessment of impacts and adaptation. This should include synthesis and packaging of information that already exist on research, approaches and tools to improve assessments of climate change impacts, vulnerabilities and adaptation as well as associated dissemination tools and methods; identification of challenges, gaps, strengths and opportunities for improving research on assessment of climate change impacts, vulnerabilities and adaptation.

4.2.1.3 Report on South Africa’s systematic observation efforts (both current and planned). The report shall detail the institutions involved in systematic observations, the parameters being monitored, methods used to monitor such parameters, the objectives for conducting such monitoring, the duration for which such parameters have been monitored; existing capacity (institutional and technical) for measuring, monitoring and reporting such parameters; and how data is analyzed, interpreted and disseminated.

4.2.1.4 Report on South Africa’s collaboration in regional and international research and systematic observation networks for combating climate change.

4.3 Immediate Objective B (Draft Chapter 5 of the TNC) – The TNC will be subjected to an independent review and as part of public consultation process for the whole TNC report to ensure quality and credibility that warrants submission to the United Nations Framework Convention on Climate Change (UNFCCC) secretariat by December 2016. The author shall work with both independent reviewers and the consultants integrating all chapters to address both independent review and public consultation comments. The outputs associated with this immediate objective are as follows:

4.3.1 An independent review comment and response database – a populated table that lists, at least: the source of comments; the comment; a cross-reference to the TNC; and proposed responses to the comments.

4.3.2 An independent review and response report – a report that provides an analysis of the comment and response database including, among others: an analysis of comment sources; areas of common concern; issues that are better addressed in future National Communications; and recommendations on how key and/or common comments should be addressed.

4.3.3 A public consultation comment and response database – a populated table that lists, at least: the source of comments; the comment; a cross-reference to the TNC; and proposed responses to the comments.

4.3.4 A public consultation public comment and response report – a report that provides an analysis of the comment and response database including, among others: an analysis of comment sources; areas of common concern; issues that are better addressed in future National Communications; and recommendations on how key and/or common comments should be addressed.

4.4 Immediate Objective C – The TNC is published in such a way that it meets international Reporting requirements and is synthesised in a manner that supports and facilitates policy making domestically. The outputs associated with this immediate objective are as follows:

4.4.1 C.1: Contribution to the Summary for Policy Makers (SPM): The fifth chapter of the TNC report is summarised and synthesised such that it captures and presents key messages out of the TNC report that contributes to policy making. The key guiding principle for the development of the SPM is that it is policy relevant as opposed to being policy prescriptive. The SPM should not be more than 10 pages long and should be written in such a way that its content is accessible to policy makers and the general public.
4.5 In addition to the outputs highlighted in sections 4.2, 4.3, and 4.4 above, the service providers shall:

4.5.1 Formally submit the 5th chapter of the TNC to the department in electronic copies (preferably on individual memory sticks);

4.5.2 The project will be managed by the department’s Directorate: Change Information;

4.5.3 The Project Director is the department’s Director: Monitoring and Evaluation – Change Information;

4.5.4 The project will be guided by the Project Steering Committee established for the development of the first biennial update report and third national communications report;

4.5.5 Companies may be invited to give presentations on the work as and when required.

5. EXPECTED DELIVERABLES / OUTCOMES / DELIVERY DATES
